ROADRUNNER-xxx	Linux embedded system on modules

We confirm RoHS compliance of the above products with the following criteria:

European Directive (EU 2015/863) and China Directive (SJ/T 11363-2006)

Regarding the REACH, ACME Systems is a “downstream user”. Our products don’t contain the “substances” & “preparations” (Article 3) or release any substances. We believe that our suppliers are obliged to provide the information (Article 33) regarding the limit value (0.1%) of substances of very high concern (SVHC). As a downstream user, if the substances of concern in our products exceed the limit according to the latest information, we will fulfill all obligations under REACH and notify our customers in accordance with Article 33.

Roberto Asquini

Administrator of Acme Systems srl
